Epidemic of HPV Cancers in Men: What Can We Do Now?

HPV in Men

Cancers Attributed to HPV in Men—

Sexually Transmitted Infection!

Cancer EPIDEMIC

OP, Anal
Cancers

5%
Each
Year

At Risk
For Other
Cancers
Later On,
Too...

Qu! Mass in My Neck...
Not Smokes
No Other real
Risk Factors

Very Common!
Clears in 2 Years
(Typically)

Prevention

Vaccine

- SAFE
- Does Not Cause...
- Great Coverage

Watch Yeast & Latex, Though!

Schedule
♀ ♂
(9) By 13!

It's **SAFE**
EFFECTIVE
and **LASTS!**

ALL Gosses?
We Can Do Better...
Address w/ Education!

Prevalence of Anal Oral & More!

Death Rates!

Plan of Action

- HPV-DAG Lecture Series
- Stiefel Gift
- MDA Retreat on HPV
- MOON SHOT

Conclusion

- Epidemic
- Imperative
- Screening Needs
- Less Toxic Therapies Needed
